GOOD WELL BROUGHT IN ON R. M. RODDIE'S LAND—LEE & SMITH BRING IN ONE.

Another well on the land of R. M. Roddie near Allen, has been brought in and proves to be one of the largest in the field. It was brought in at 700 feet. When the well was shot the force of the well cleaned the well out and as yet it has not been put on the pump. It ran for fourteen hours and was then shut down on account of the tankage being full. It is estimated that the well will settle to a production of 300 barrels per day. The well is in the south part of Section 34 and on the extreme edge of the proven field.

Lee & Smith have brought in a well in the east half of SE. NE 28-5-8 estimated at 39 barrels.

It is reported that large interests have combined to make a deep test in Sec. 12-3-7 in Bruno Mayer's pasture near Conway in the eastern part of the county. It is said that an ideal rig is to be placed at once and that the well will be put down to a depth of from 2,500 to 4,000 feet, if necessary. This is the location federal government geologists in a report issued a year or more ago pronounced one of the most promising in this part of Oklahoma.

BOLSHEVISTS MEET REPULSE

GERMAN VOLUNTEERS HALT INVASION OF RUSSIAN RED ARMY AT LIBAU.

By the Associated Press

BERLIN, Jan. 28.—Forces marching on Libau on the Baltic coast of Courland have been halted. German volunteer forces which are thought to be greatly outnumbered forced the Soviet army back across the Windau river, according to special dispatches to the Seitung Ammittag. In course of their terrorization. In Estonia Bolshevists are reported to have killed 604 people in Dorpat and Wesenburg.

AWFUL REIGN OF BOLSHEVISTS

By the Associated Press

OMSK, Central Siberia, Jan. 17.—Death stalked the streets of Perm until the city was captured by General Gaidar. According to the official report of the investigator just returned from the Ural front there were no children under a year old in Perm, all having died, and in three months the entire population would probably have perished. The report states that when the city jail was full those there longest were shot to make room for newcomers. Reports of the men being burned alive are well authenticated.

PERSHING HASTENS DEMOBILIZATION

By the Associated Press

PARIS, Jan. 28.—General Pershing reports that by April he will be dispatching American troops homeward at the rate of 300,000 monthly which is considered as rapidly as possible without adding to conditions attendant upon unemployment. The demobilization committee of the peace congress is now being divided into two sub committees working on different branches of the problem.

LABOR BEFORE THE PEACE CONFERENCE

By the Associated Press

PARIS, Jan. 28.—The American delegation to the peace conference, it appears, has decided to keep the labor question to the fore as much as possible in conferences here. President Wilson and Col. E. M. House have arranged a meeting of the American labor men tomorrow to formulate a program to be pushed.

German leaders assert that at least half a million inhabitants of the empire have died as a result of the food shortage made acute by the allied blockade. While this loss of life, especially in this manner, does not cause a feeling of satisfaction on the part of any person of humane instincts, the German leaders have no one to blame but themselves. They started the war and carried it on in

Now that the war is over the world will witness the keenest competition in history in the matter of building towns in Oklahoma. All the progressive ones are awake and pushing their advantages to the utmost. The world will soon be advised of all the undeveloped resources of Oklahoma and the advantages offered manufacturing enterprises. Ada is right at the front and is prepared to give the best of them a race.

Ada has never stood still since it was placed on the map. It has never boomed, but just gone steadily forward enjoying a solid, healthy growth that has made it one of the most substantial places in the state. Building operations are still going forward and with the return of peace conditions still more will be under way.

It was once a proverb that the head that wore a crown was more or less uneasy. In the case of the kaiser his head has been much more uneasy since he lost his crown than before, not knowing whether the allies would permit it to remain on his shoulders or insist on its coming off.

DAILY HEALTH TALKS

A Single Remedy Often Cures Many Diseases

BY VALENTINE MOTT, M. D.

It is almost impossible to give a list of the endless diseases that follow indigestion. Perhaps a whole column in this newspaper would be required to print them all. You eat to keep alive—to supply blood and flesh and bone and muscle and brain. It is easy to see that if your food is not digested and taken up by the delicate organs and distributed where it is needed, a disease of some sort is sure to come. Dyspepsia is a common symptom, and so are liver complaint, loss of flesh, nervousness, bad memory, dizziness, sleeplessness, no appetite. Many times, when neglected, indigestion results in coughs, throat diseases, catarrh, bronchitis and even more dangerous things. And all these disorders arise because the food is not properly digested in the stomach. It is plain even to a child that relief and cure are to be had only by setting up a healthy condition in the stomach. Dr. Pierce's of Buffalo, N. Y., many years ago combined a number of vegetable growths into a temperance remedy for indigestion, and called it Golden Medical Discovery. It is probably the most efficacious discovery ever made in medicine, for the list of people all over the world who have had their countless ills overcome by Dr. Pierce's Golden Medical Discovery makes an amazing total of thousands.

I know of no advice better than this: Begin a home treatment today with this good vegetable medicine. It will show you better than I can tell you what it will do. When taking Golden Medical Discovery, you can rest assured of one very important thing—it contains neither alcohol nor opiates. There is nothing in it but standard roots and herbs that possess curative properties of a high order. A safe medicine is the only kind you can afford to take.

CITY OF BREMEN MAY NOT GET REQUEST

By the Associated Press
HONOLULU, T. H., Dec. 25.—(By Mail)—H. Wilhelm Wolters, who came to Hawaii nearly 40 years ago from Bremen, Germany, as a poor clerk and accumulated a fortune of almost half a million dollars, made a will four months after the United States had entered the war against Germany, bequeathing almost all of his estate to the "Free and Hansa Town of Bremen, Germany."

Walters died recently and his will has just been made public. Under its terms the estate, valued at \$435,000 is to be held in trust for ten years, during which certain annuities are to be paid two brothers and other relatives, and, after a few other minor bequests are paid, the residue is to go to Bremen for charitable, educational, scientific and other purposes.

Richard H. Trent, representative in Hawaii for Custodian of Enemy Alien Property Palmer, is of the opinion, however, that Wolters' wealth may never go to Bremen. Mr. Trent is placing the case before the authorities at Washington. Wolters for many years had been a naturalized American citizen. He was a heavy owner in the old H. Hackfeld, Ltd., a concern which was recently Americanized under the American Factors, Ltd. This concern made a score of expatriated German wealthy.

AS IT WAS.

So the kaiser is thinking of going back to Germany. It is a dead cinch that he can't take part in the new democratic government that is being formed, but he might go on the side of the Bolsheviks, as their principles and methods agree with him.

The old man that used to sit on a soap box at the cross roads grocery store and whittle on a soft pine stick, is now worrying about the high price of gasoline.

At the end of the first month the groom figures the amount of his bills on a sheet of paper, the second month on a tablet and about the months he buys an adding machine. Of course it is the high cost of living.

About the hardest word to give a definition is STYLES. They are so varied and changeable. About the time one set rule is made somebody lets the wheels turn again.

It is funny how some people don't like a musical comedy. But they will go just the same and don't forget they will ask for a third encore.

If leaders could be made in America as they are in Russia, the natural born leader would have to take a back seat.

Influenza Vaccine Proves Successful
The influenza vaccine, perfected by the Public Health Laboratories of the University of Missouri at Columbia, is proving successful, according to reports received from different parts of Missouri.

The vaccine was perfected during the influenza epidemic at the University last December. As soon as enough could be made, it was sent to prominent physicians in this country for trial. Reports from these say that the vaccine is a success. It is now being sent free, upon request to physicians applying for it. It is given similarly to the typhoid serum, except that the injections are given at periods of three days until completed.—From Cass County, Missouri, Democrat.

A Remedy For the "Flu"

Tincture of capsicum, 1 1-2 drams; saturated solution of camphor, 1 1-2 ounces, and enough of sweet oil to fill a four ounce bottle. Apply warm to the throat, chest and back. This will prevent pneumonia, or will relieve it. A sure relief will be obtained in four hours.

The above remedy was used by Dr. Harold M. Hays, a member of the United States Army Medical Corps, stationed at Fort Oglethorpe, Georgia, who has not lost a single case from this disease. Many cases were relieved in Denver, Colorado, by the remedy, and in Chelsea, Oklahoma, it is being tried out with great success.—From The Chelsea (Oklahoma) Reporter.

OFFICERS PRAISE

111TH ENGINEERS

The following high praise for the 111th engineers from their commanding officer is of interest to Ada people because of the fact that two members of the command, Roy Meeks and Stewart Anderson, are from here. The report follows:

"The 111th Engineers was assigned as corps engineer regiment, 1st Army Corps, just as the St. Mihiel offensive was beginning, and it continued as such throughout that section and operations from the Argonne to the Meuse river, a total period of over two months.

The services rendered were of inestimable value. Every call made upon the organization and upon the officers and men was met not only efficiently but enthusiastically regardless of adverse conditions of weather, fatigue from long marches and day and night labor often required, and danger from enemy fire.

"Road, bridge and other construction work on which the regiment was principally engaged proved to be practically of equal importance for a successful offensive with that of fighting itself. Everywhere the Germans proved to be masters of the art of defense by means of artillery and machine gun fire from selected positions and nests from which in many cases they could be dislodged only by bringing up our artillery and deluging them with fire from field pieces 155s and even heavier. Much of the success attained by our American Divisional and corps artillery was due to the promptness with which destroyed roads and bridges were built or repaired. Again, the successful supply of the front with ammunition, food and water depended as a rule on transportation by means of motor trucks for which hard roads were an absolute requisite. Several times it was noted that the apparent cause for a delay or halt in a victorious advance was due primarily to the softening of the roads by heavy rains. The lack of sufficient number of good roads and consequent traffic jams; or difficult road sections around craters which delayed supply trains, etc. In fact, the transport column delayed acted like an anchor preventing further advance.

It is not too much to say that one of the greatest factors contributing to the constant success of the first army corps was the road and bridge work of its engineer troops, divisional, and corps, assisted especially in the first offensive by a large number of army engineer troops.

Among all these, no organization's work ranks higher than that of the 111th engineers. G. M. HOFFMAN, Colonel Engineers.

Gen. Craig, C. of S. 1st A. C. Co. C, 111th Engineers.

MRS. M. E. HOYLE HAS GAINED 30 POUNDS

I've Never Found Anything To Equal Tanlac, She Says—Troubles Overcome

"If I could speak with everybody personally who has stomach trouble and rheumatism," said Mrs. M. E. Hoyle of 1320 Pennsylvania Avenue, Kansas City, Mo., "I would advise them to take Tanlac, for I have tried it myself, and have never found anything to equal it. I have suffered with rheumatism during the past ten years until I thought I would go distracted. The pain would extend from my hips down to my ankles, the muscles and leaders felt like they were drawn, my knees were so stiff I could hardly bend over, and many a night the pain was so severe that I could hardly keep from crying. My appetite was very poor and my stomach was so out of order that what little I did eat made me miserable. I suffered terribly from indigestion and would bloat up so badly from the gas on my stomach that I could scarcely breathe, and there was also a dull aching pain in the pit of my stomach. My complexion was very bad, sallow and yellow looking, and I just felt badly all the time.

But Tanlac has been a wonderful blessing to me and no one could see the change that has taken place in me during the past few weeks and doubt it being a great medicine. All my rheumatic pain and stiffness is gone now, and you may know I feel like a new person. My appetite is splendid, I am never bothered with indigestion or gas any more, no matter what I eat, and my color is fine. Not only have I been relieved of rheumatism and stomach trouble but I have also gained thirty pounds in weight, besides. Now these are my reasons for thinking so well of Tanlac and I will gladly tell anyone who cares to call on me what I have found out by experience about it."

Tanlac is sold in Ada by Gwin & Mays Drug Co.

ATTORNEY GENERAL FREELING UPHOLDS GEN. PENTECOST

By the Associated Press
OKLAHOMA CITY, Jan. 28.—An opinion by Assistant Attorney General Bleakmore recognizes the official position of Brigadier General Harry Pentecost of the Oklahoma National Guard, and also recognizes the salary and expense claims recently rendered by General Pentecost and turned down by State Auditor Frank Carter.

The assistant attorney general's opinion in a measure disposes of the question as to whether the position of brigadier general may be created by the governor and a man appointed by that executive to fill the position. The opinion upheld the validity of General Pentecost's claims.

POINTERS ON U. S. INCOME TAX LAW

OKLAHOMA CITY, Jan. 28.—The big Income Tax drive of 1919 is now under way, and every preparation is being made to handle the largest collection in the history of Income Tax. "I am not waiting for the final passage of the new Revenue Bill by Congress," said Collector Hubert L. Bolen today, "nor for the new regulations and blank forms to be issued. To get this big tax in and get it accurate and complete, I urge that we all begin now."

"The income tax obligations imposed by the old laws, as well as the measure now in Congress, consist of two distinct operations. One is, to file return or statement of all items of income and items of deductions

allowable by law, and to do this within the period named in the law. The other is, to pay the tax, if any is due.

"Neither of these obligations can be met without a careful review of income and expenditure for the tax year. That is the big job right now, and that is why I say the Income Tax drive is already under way. Every where the pencil is busy. The old year is done; all its fruits are reaped and every person who fared well, or earned a good competence, must analyze his own case in cold figures.

"When the new bill is enacted into law, I will have the proper return forms distributed throughout the District, and everybody will be informed of the date when the sworn return must be filed. It is my plan to send my men out to central locations, and to have them travel thru the District, aiding taxpayers in the preparations of the returns and in deciding doubtful points. We will go right to the people with the Income Tax, and with the co-operation which the public can give the government men, the returns will be filed by everybody who comes under the law's provisions, the right taxes will be paid, and the District will have done its full patriotic duty toward the government's support.

"Meanwhile let me say again there is no need of delaying the preparation of figures. Guesses cannot be accepted as the basis of taxation. It is clearly the duty of every person to compile correct figures and ascertain whether his income for 1918 was sufficient to make necessary a sworn return.

"The year 1918 was a banner year for salaries and wages, and the high war prices brought unusual profits to the average small tradesman and to the farmer. The opinion in Washington is that a million citizens and residents will make this year their first income tax returns.

"All signs indicate that the income tax this year will reach nearly every working man and woman, and nearly every merchant, shop keeper and farmer. Not all will have to pay the tax, but nearly all will be obliged to make a sworn statement of the year's income.

"I am therefore advising every unmarried person who earned \$1000

"He must ascertain accurately his gross income from all sources. There is his salary or wages, including overtime pay and any bonds received as additional compensation. A married person having children under 18 who are working should include the earnings of such children.

"If he sold any property at a profit the gain must be computed and included in gross income. If he rented any property to other persons, the total rents received in the year must be ascertained, and from that figure a deduction may be taken for taxes paid on rented property, the necessary minor repairs, fire insurance, any interest he may have paid on mortgage, and a reasonable allowance for annual wear and tear of the rented property. The balance is included in gross income for the year.

"Interest on bank deposits, whether withdrawn or added to his bank balance, must be included in all calculations of income. Bond interest received during the year must also be included, except interest on municipal, county or state bonds. Interest on United States Bonds need not be included by the ordinary bond holder who purchased small amounts. The holders of large amounts of Liberty Bonds, however, should ask their bankers to write to my office for the rule applying to tax on such interest.

"Dividends on stock shares are income, and must be included in the gross figures, although the law does not impose the normal tax on distributions made by domestic corporations.

"A person buying and selling merchandise must find his profits for the year on the following basis: First, ascertain the gross sales or total cash receipts. Then add together the inventory at the beginning of the year and the purchases of goods for resale. From this latter sum subtract the inventory of goods on hand at the year's end and the result is the cost of goods sold. This cost, plus necessary expenses incurred solely through conduct of the business, is to be deducted from the gross sales, and the result is the net earnings of the business.

"A professional man arrives at his professional income by ascertaining the total of fees for services and deducting therefrom all expenses connected directly and solely with his practice.

"A farmer must figure up all income derived from the sale or exchange of products during the year, whether such produce was raised on the farm or purchased and resold. He is allowed to deduct from this total his expenses of the year connected with the planting, cultivation, harvesting and marketing of the crop, or the care, feeding and marketing of livestock. He is not allowed to deduct the amount expended in 1918 in purchasing stock for resale; but when such stock is sold its cost is to be deducted from sale price in ascertaining the gain to be included in his return of income. The cost price of stock bought prior to 1917 cannot be deducted as in the case just cited, if such cost was included in the deduction made in the year of purchase.

"The farmer is not required to include in his income tax computation the value of farm produce consumed by himself and family. But in cases where he changes produce for merchandise, groceries, etc., the market value of the articles received in exchange must be included.

"All other items of income arising during the year through personal service, business or trade, through use of property or money, should be added into the gains for 1918.

"Everybody wants to know what income is exempt from tax. Very few plums that fall to the average man may be legally disregarded in figuring up his 1918 income. Gifts and bequests can be eliminated; also proceeds of life insurance received by the beneficiary of an insured person. A person who cashed in an endowment policy need report as income only that portion which exceeds the total of the premiums he paid in all years on that policy. Annuities are not taxable, unless the person received in the year payments which represent, when added to all prior payments on the annuity, an amount greater than the original cost of the annuity. Dividends unexpired life insurance policies are not taxable income; but dividends on paid up policies must be considered income. Alimony is not income to the recipient, nor is it an allowable deduction on the part of the person who pays.

"From the total of all items of income, there are certain deductions allowable by law. All interest paid on personal indebtedness and all taxes paid during the year are deductible, except Federal Income and Ex-

cess Profits taxes, inheritance taxes and assessments for local improvements, such as sidewalks, sewers, etc. Losses incurred in business are allowable, also losses arising from fires, storms, shipwreck or other casualty, or from theft, in cases where such losses are not compensated for by insurance or otherwise. Losses incurred outside of a person's regular business are allowable to the extent of gains reported from similar transactions with the year. Debts due to the taxpayer actually ascertained to be worthless during the year are deductible.

"Depreciation on property used in a profession, in business, or in farming is another item that may be claimed as a deduction. The storekeeper may claim depreciation on his fixtures, and on his delivery horses and wagons, but not on his stock held for sale. The professional man may claim similar deduction on his instruments; and, in the case of the physician who maintains a team or auto for making his calls on patients a reasonable depreciation may be claimed. The farmer may claim depreciation on his farm buildings, aside from his personal residence, also on his farm machinery, his work horses and farm work wagons. The theory of depreciation, in connection with the Income Tax, is that wear and tear caused by use in earning income is a real expense in the earning of that income. The rate is determined by the number of years that the property ordinarily would be useful, and the cost of the property is the basis of the computation. If the property suffering depreciation was bought or acquired prior to March 1, 1913, the market value as of that date is used, instead of the cost, in figuring depreciation.

"Contributions or gifts actually made in 1918 to organizations operating exclusively for religious, charitable, scientific or educational purposes, and to societies for the prevention of cruelty to children or animals, may be deducted to an amount not exceeding 15 per cent of the net income computed without the benefit of this deduction.

"After the total of all income is found, and the deductions allowable by law have been computed as an offset, the amount of income in excess of such deductions is the net income which forms the basis of the assessment of tax.

"If every person in this district will examine his own 1918 income and his allowable deductions, in line with data that I have given, he will know beyond doubt whether he must file his return when the blanks arrive. And here is how he will determine his liability to file a return. If he is single he must file if his net income was \$1000 or more, and this requirement is enforced whether or not he is the head of a family. If he is married he must file his return if his net income, including that of his wife and minor children, was \$2,000 or more.

"I want to emphasize the cooperation feature of the collection of the Income Tax this year. The policy of the Internal Revenue Bureau is to aid taxpayers to meet the requirements of the law. We are going right to the people, not to swing clubs or to mule the wage-earner of his savings, but offering every helpful governmental function that will assist people to do their duty.

Higher Electric Rates— WHY?

We are asking for an increase in rates and have set forth in preceding ads some of the reasons for doing so. The question is sometimes asked: "How does the proposed rate compare with the rate in other towns?" Comparisons of rates are not fair unless the size and location of each town and many local conditions are taken into consideration. The following are a number of rates that have been made within the past year:

| | | |
|--------------------------|-----------------|-----------------------------|
| COALGATE-LEHIGH-PHILLIPS | 1 to 9 KW | 18c Gross or 17c Net |
| | 9 to 20 KW | 17c Gross or 16c Net |
| | 20 to 40 KW | 16c Gross or 15c Net |
| | 40 to 60 KW | 15c Gross or 14c Net |
| DURANT—Residence | First 20 KW | 15c Gross or 12.5c Net |
| | All over 20 KW | 13 1-3c Gross or 12.15c Net |
| DURANT—Commercial | First 50 KW | 12c Gross or 10.8c Net |
| | Next 50 KW | 10c Gross or 9c Net |
| | All over 100 KW | 9c Gross or 8.1c Net |
| VINITA | First 30 KW | 17c Gross or 15.3c Net |
| | Next 30 KW | 16c Gross or 14.4c Net |
| TAHLEQUAH—Residence | First 20 KW | 17c Gross, Net not stated |
| | All over 20 KW | 12c Gross, Net not stated |
| TAHLEQUAH—Business | First 50 KW | 17c Gross, Net not stated |
| | Next 50 KW | 12c Gross, Net not stated |
| | All over 100 KW | 6c Gross, Net not stated |
| CUSHING | 1 to 30 KW | 14c Gross or 13.3c Net |
| | 31 to 61 KW | 12c Gross or 11.4c Net |
| EL RENO | First 50 KW | 14c Gross or 12.6c Net |
| OKLAHOMA CITY | First 50 KW | 13c Gross or 11.7c Net |
| ADA (PROPOSED RATE) | First 50 KW | 14c Gross or 12.6c Net |

The above net rates apply on bills paid on or before the 10th of the following month.

In most of the above cases we have given the rates on the first 50 KW only, as the larger quantities would be in proportion and would apply to fewer bills. Over 85 per cent of the electric light bills in Ada are for less than 50 KW. The old rate on these is 12c. The proposed net rate would be 12.6c; an advance of only 6 mills or 5 per cent.

The Corporation Commission will hear this case next Friday, January 31st, at Oklahoma City.

Alvis Jones, who has been visiting his parents, W. C. Jones and wife left today for Philadelphia where he will resume his duties with the navy.

Joe McElreath left this afternoon for Louisiana where he will spend the rest of the winter buying cattle. He will go via Fort Worth to study market conditions.

Although the war is over, the Red Cross has not ceased its activities and will not, while so many men are in the field. The Ada chapter has quite a little work assigned, but the workers are not as numerous as in times past. The organization would appreciate more help in the sewing department.

AMERICANS AND BRITISH REPULSE BOLSHEVIKI

ARCHANGEL, Jan. 27th—Bolshevik forces failed in an attempt last night to drive American and British troops from the positions at Tulas on the Dwina River southeast of Archangel. Earlier the enemy had bombarded these positions.

Remarkable Armistice.

One of the most remarkable armistices on modern record was concluded between Spain and the western republics of South America at Washington in 1871. It provided that there should be no renewal of hostilities between the contracting parties, except after a three-years' notice, which was to be given through the United States government.

CHAMBER TO BANQUET THURSDAY EVENING

Hon. Paul Nesbitt, former speaker of the House of Representatives in the Oklahoma legislature and now one of the leading members of the same body, will be in Ada Thursday night and address members of the Chamber of Commerce at the Harris hotel. T. B. Blake, Jr., announces that the Chamber of Commerce will banquet that night and Mr. Nesbitt will be the honored guest.

It is thought the campaign for the \$50,000,000 road bond issue will be formally launched at this meeting, being the beginning of the campaign for the state. Representatives from other towns in this part of the state are expected to be present.

There will be room for only a limited number at this banquet, and those who are interested in the matter will do well to see Mr. Blake or Mr. Walker today or Wednesday. This will be one of the most important meetings of the Chamber during the entire year.

DOUBLE KILLING NEAR LANHAM

OSCAR WILLIAMSON AND JEFF ANGLIN SHOT. K. R. PARKS SURRENDERS.

Oscar Williamson and Jeff Anglin were shot and killed at the home of K. R. Parks near Lanham school house twelve miles west of Ada, Monday evening about six o'clock. K. R. Parks is alleged to have done the shooting and is held in the county jail on this charge. He has made no statements in reference to the affair. The cause of the shooting has not been ascertained and the only eye witness to the shooting was Mrs. Parks.

The weapon used was a 32 automatic. Williamson was shot under the eye and Anglin's neck was broken.

Both of the men killed were farmers living in that community. J. F. Anglin is the twenty-year-old son of S. A. Anglin who lives here. The burials of the deceased will be held in the Denny cemetery near Francis.

PLAN OF HANDLING GERMAN COLONIES

LONDON, Jan. 28.—Referring to discussions relative to the future status of Germany's colonies by the peace congress, the Paris correspondent of the Mail States that President Wilson appears to have advanced a general scheme which might be termed the internationalization of Germany's late possessions. The plan is not exactly defined but in principle it would make it mandatory for the various powers to administer the colonies subject to the league of nations control.
